SENATE VOTES TO TRY HOOKER

HIS REMOVAL SEEMS CERTAIN IF ODELL DOESN'T INTERFERE.

Democratic Senators Will Be Against Him Now That They're Satisfied Legis-Able Argument-Trial Set for July 10.

ALBANY, June 28.-Judging from remarks made by Democratic Senators in this city to-night, Supreme Court Justice Warren B. Hooker might just as well resign now and save the members of the Legislature the trouble of removing him in the week commencing Monday, July 10.

If Justice Hooker is expecting to have Democratic votes to save him from being removed he is counting without consulting them, so some of them say. Having been satisfied that the Legislature has juris-diction under Section 11 of Article VI. of the State Constitution, it is asserted that the majority of the Democratic Senators will now vote to remove him. Justice Hooker's friends have been hoping all along that a two-thirds vote could not be secured in the Senate for his removal. They had counted on securing the entire fourteen Democratic votes and had relied on the votes of Senators Elsberg and Saxe of New York, McEwan of Albany and Fancher of Cattaraugus to prevent securing the 34 votes required. Two Senators, Barnes of Rensselaer and Hill of Buffalo, are in Europe.

If no deal is made between now and July 10. when the Legislature is to reconvene to try Justice Hooker, the responsibility of the failure to remove him will be placed with Chairman Benjamin B. Odell, Jr. Mr. Odell's personal attorney, Edward Lautertach, was in Albany to-day and for a time was an interested observer of events in the Senate chamber. It is admitted on all sides that a two-thirds vote can be secured in the Assembly.

It was thought that to-day a test vote might be had in the Senate when the report might be had in the Senate when the report of the Senate Judiciary Committee was made and the committee offered for adoption the Assem ly resolution calling upon Justice Hooker to appear before the Legislature in joint session to show cause why he should not be removed. But although Senator Marks (Tam.) had offered to the Senator Ludiciary Committee a Lirief discrete Ludiciary Committee a Lirief discrete. Senator Marks (Tam.) had onered to the Senate Judiciary Committee a trief disjuting the jurisdiction of the Legislature and Senator Saxe had said that he telieved Judge Maynard was an abused man in the light of recent developments, the resolution was unanimously adopted. These Senators however, were absent: Am ler. Barnes, Burr, Cobb, Coggeshall, Els.erg, Hill, Hinman, and Tully (Reis) and Frawley and Kenoe (Dems).

Kenoe (Dems). he opinion of Senator Brackett showing that the Legislature had jurisdiction was listened to with considerable interest and was considered such an able effort

was instened to with considerable thetesard was considered such an able effort that 5,000 extra copies of it were ordered printed to be distributed among the lawvers of the State. Senator Grady offered the resolution for the printing, saying, "the members of the Judiciary Committee were impressed yesterday with the fact that they were establishing a precedent which is to live forever."

Senator Brackett in his opinion showed that Section 11 of Article VI did not imply in any sense that a Justice of the Supreme Court should be removed under its provisions only for physical disability, insality or any such causes as has been asserted it was intended for. He maintained that the section was inserted in the Constitution in 1821 for just such a purpose as this ore, but it left the matter of cause for the I egislature to determine. He contended that the section gave the Legislature ample power to proceed under its terms. rewer to proceed under its terms.

He cited many authorties for the opinion.

Fe also quoted from the Massachusetts law and gave other references. In conclusion he said:

clusion he said:

"whatever doubts I have had on the subject have been solved and I have come to the confident conclusion that the right of removal, for any cause whatever, exists in the two houses of the Legislature, if two-thirds concur, and that the people have intended for over eighty years to keep precisely that check over and to continue precisely that responsibility of the judiciary of the State that as all power resides in the the State; that as all power resides in the recide and is derived from them all officers, including Judges, are accountable to them.
"I am aware that many are fearful that
this is inconsistent with an independent
judicary. It certainly does not mean a judiciary without responsibility; it certainly does mean that a member of the judiciary must order his life while of the bench and not performing official duty in such fashion as will not scandalize himself or the bench, or he must run the risk of removal in this

memore, and it should so mean."

The members of the Legislature are now anxious to have the whole matter disposed of in a hurry. It has been decided that a week's time will be all that will be required to take the testimony in the case. At first it had been proposed. case. At first it had been proposed have the Legislature reconvene on 5, but there was some opposition to this, and the Senate Judiciary Comwhich had fixed the date for the appearance of Justice Hooker for June 22, to July 11 at 10 A. M. Senator Cassidy objected to this. He wanted to proceed at once. He said the coming and going from Albany was a matter of great expense to the mem-lers, and he had become tired of this ad-journing from time to time. "We have sat here to-day and listened."

he said, "to the learned report of the Judiciary Committee, which has found what we had known, that there was an open door through which a corrupt Judge could

be given an exit."

However, the amended resolution providing for July 11 was adopted and sent to the Assembly. That body decided to have a voice in the matter and changed the date to Monday, July 10, at 1 P. M. The

Senate, however, accepted this.

A recess was taken to give the Senate and Assembly Judiciary committees an opportunity to formulate a plan of pro-cedure and prepare rules for the trial. However, the committees could not pre-lare them in that time and the Legislature rajourned until Monday, July 10, at 12:30 o'clock, when the procedure and rules will be adopted. The trial will be before both houses in joint session in the Assembly

COMPROMISE ON CAPTAINS. McAdoo Partly Carries His Point Against Civil Service Commission.

The differences between Police Commissioner McAdoo and the Civil Service Commission were adjusted yesterday at the conference in the City Hall between Mayor McClellan, Mr. McAdoo and Civil lature Has Jurisdiction—Brackett's Service Commissioners Baker and Talley. The commission has been endeavoring to force Mr. McAdoo to appoint new captains from an eligible list which is over three years old. Mr. McAdoo has refused to make appointments from this list and has ordered the candidates on it to go before the Board of Police Surgeons for physical examination. The Civil Service Commissioners were much exercised over this order. They held that as the sorgeants on the list had already taken all examinations they were entitled to promotion to vacancies, and that it would be an evasion of the spirit of the civil service law to compel them to submit to further tests. The Civil Service Commission has threatened that it would not certify the payrolls upon which the names of acting captains not picked from the eligible list appeared. Mayor McClellan amounced after yes-

brayor motiellan announced after yes-terday's conference that an understanding had been reached and peace restored. The Mayor would not make known just what the agreement was, but it is underwhat the agreement was, but it is under-stood that Commissioner McAdoo agreed stood that Commissioner McAdoo agreed not to make any promotions, even temporary, except from the existing list, while the Civil Service Commissioners on their part consented to order a new physical examination of the sergeants on the list.

There are only twenty-two names on the list. The new examination, it is believed, will undoubtedly disqualify several men. This will mean immediate necessity for another eligible list, just what is desired by Commissioner McAdoo, as he is opposed to promoting some of the sergeants on the existing list.

HOW BRAUN THUMPED THE SPY

NARRATIVE OF OUR SPECIAL IM-MIGRATION COMMISSIONER.

Even Communications to Him From His Own Department Opened in Budapest Before He Got Them - A

Decoy Letter Captured the Detective. Although the diplomatists were reported to have settled that little row that Marcus Braun, the special immigration commissioner, had over in Budapest, Hungary, when he thrashed a Government detective, Commissioner Braun, who landed yesterday from the Kaiser Wilhelm, said that he didn't consider the incident closed at all. Mr. Braun says that the State Department has never heard all the facts in the matter. but it will get them in a report he is shortly to make.

Mr. Braun recited with some animation last night the details of the thrashing he gave the detective in the corridor of the hotel in Budapest. Mr. Braun went abroad three months ago, and after visiting France and England went to Hungary to continue the investigation he had begun on a former

"I arrived in Budapest on April 17," said Mr. Braun. "No sooner had I arrived than a detective named Kalmar, a big, strapping fellow, a member of the secret police, was assigned to shadow me. The police work directly under the Minister of the Interior. This man followed me about day after day. I began to notice that the letters I got at the hotel were about twentyfour hours later than their postmark. METZ FOR COMPTROLLER

McCarren's Choice, With James D. Bell for Borough President.

Senator McCarren intends to urge the selection of Herman A. Metz as the nominee for Comptroller on the Democratic ticket this fall. Mr. McCarren's relations with Comptroller Grout are as friendly as ever, but the Senator believes that Mr. Grout was in earnest when he stated in the spring called the attention of the hotel people to that nothing could induce him to run again for public office.

Mr. Metz is an independent Democrat. He is president of the Guardian Savings Bank of Brooklyn, a director of the Guardian Trust Company, a director of the Borough Bank of Brooklyn and president of the Consolidated Color and Chemical Company. He is also president of the Kings County and Brooklyn Democratic clubs.

It was stated also last night that James D. Bell, the Assistant Corporation Counsel in charge of Brooklyn, will be the candidate of the Kings county Democratic organization for Borough President.

policeman found when he was searched. The bill was offered in evidence. "About two years ago," said Capt, O'Con-nor, "I would have had no trouble in getting into that place during the time services were going on. At that time I had a fine growth of whiskers. When my friends commenced to call me 'Galways', I cut them off. My best wardman, whose name is Eaton, has red hair and a red mustache and all my plain clothes men look like harps. As I wasn't sure whether it was a poolroom or a synagogue I did the best I could."

The Magistrate held Jacobs for trial in spite of his ingenious explanation and discharged the other men.

TOLD COURTNEY SECRETS? Cornell Graduate Said to Have Imparted Them to Ten Eyck.

POUGHKEEPSIE, N. Y., June 28 .- There is talk of a scandal arising in Cornell rowing circles, growing out of the charges made against a prominent Cornell graduate to the effect that he has been paying repeated visits to Coach Ten Eyck of the Syracuse crews and has been giving him advice on the methods that Courtney uses.

This graduate, the father of a Cornell oarsman and himself a Cornell oar, knows Courtney's system perfectly. It is said that this is the reason why there has been a noticeable change in style in the Syracuse crews, which, it has been noticed, have been rowing more like Cornell's eights this year than last, making use of several important modifications of style.

It is known that this man has been out on the Syracuse launch time and again, and has advised Ten Eyck on various row-

ing matters. The reason for his action is said to be private pique.

He is in a position to know almost all about Courtney's ways of teaching rowing, for he accompanied the veteran coach on about Courtney's ways of teaching rowing, for he accompanied the veteran coach on his trip to Henley several years ago and was thoroughly in the old man's confidence. Coach Courtney would not talk about the affair to-night, merely saying, "Wait till we get home." It is understood that he will bring the matter to the attention of the authorities at Cornell.

Samuel H. Cook, the graduate manager Cook, the graduate manager of the Syracuse Athletic Association, to-night made an authoritative denial of the story on behalf of Ten Eyck, characterizing

e report as malicious and false.
"Coach Ten Eyck has had only one visitor out on the launch by invitation since he has been here. Ten Eyck is the sole rowing authority at Syracuse and takes no suggestions from any one. It is false to say that we have received any help of this kind from any one."

PART OF BUILDING COLLAPSED.

Party-Second Street Structure Was to Have & Marbie Front and One More Story. Part of the rear of the fourth and fifth floors of the business building at 25 and 27 West Forty-second street, which is being remodeled, fell in at 10 o'clock last night. The building is being reconstructed by the Atlas Construction Company of 500 Fifth avenue. The inside had been torn out and a marble front is to be put in. Another and a marble front is to be put in. Another story is to be added to the building, which now has five stories. 'The building adjoins the Westminster Presbyterian Church. Louis Levy, the watchman, was in the front part of the building when the rear of the fourth and fifth floors collapsed. On the second floor was a large skylight over the store on the ground floor, formerly occupied by Peck Bros., plumbers. ITCHING EPIDEMIC. Boy Started It With a Can That Wouldn's

Explode-Hospital Busy. The office of the Hudson street hospital was packed for half an hour last night with small boys who fidgeted and scratched and skipped about like fleas. Their parents were with them and they called on the doctors with one voice, "Do somethin' for my

kid. He itches and can't stop it." Four doctors and Supt. Egan inspected twenty-three boys and gave it up in amazement. Every boy had funny looking white blotches on his hands and wrists and face, and every boy tied himself

wrists and face, and every boy tied himself into knots and howled for relief. There seemed to be nothing in pathology to fit the cases until Tommy Healey, 13 years old pulled a can out of his pocket and tried to hide it behind a chair "Here, you, what's that?" said the superintendent.

He examined the can and found that it had been used to hold cowhage, a powder that veterinarians find useful occasionally for what the dictionary calls anthelminthic purposes. It is about the litchiest stuff going.
